

Mastersolve Technical Data Sheet

MASTERSOLVE is a highly efficient multi-purpose hard surface cleaner and degreaser containing water soluble solvent. Effective in hard or soft water. Efficient in cold or hot solutions.

INSTRUCTIONS Dilute 1 part Mastersolve multi-purpose cleaner with up to 50 parts of water, dependent on the amount of dirt or grease contamination and type of surface to be cleaned. Apply solution by sprayer, mop or cloth and allow to penetrate and emulsify before wiping clean.

RECOMMENDED DILUTIONS Display signs, light reflectors, motor vehicles, ceramic and glass surfaces, windows etc: Mix 1 part Mastersolve to 50 water. Light floor cleaning, marble, terrazzo, melamine, aluminium, venetian blinds, walls, painted woodwork, vinyl and plastic upholstery: use mix 1 to 30. Wipe dry. Ventilation fans, ovens, work benches, machinery, garage and shop equipment etc: use mix 1 to 10. Wipe dry. Excessively greasy equipment in factories, garages, kitchens etc. and for heavily soiled floors: use mix 1 to 5. Apply solution and allow to penetrate and emulsify grease, rinse and wipe clean - floors scrub well, mop or vacuum resultant slurry, rinse and allow to dry. Do not allow to dry on glass or aluminium. Rinse away promptly with water.

HEALTH AND SAFETY Irritating to eyes and skin. Avoid contact with skin and eyes. Wear suitable protective clothing, gloves and eye/face protection.
