

Safe Glaze Technical Data Sheet

SAFE GLAZE is an industrial strength cleaner, descaler and disinfectant ideal for use on a wide range of sanitary surfaces. The thick viscous nature of the product

means it clings to vertical surfaces so increasing its effectiveness. Although it contains less than 10% phosphoric acid, Safe Glaze is effective in removing rust,

water stains, limescale, algae and moulds.

INSTRUCTIONS/DILUTIONS It is always recommended to trial the product before full use.

Apply neat to remove heavy deposits and stains, agitate if necessary with a mop,

brush or cloth then rinse away with clean water.

STORAGE Keep stored in a cool dry well ventilated safe place.
